

F6 Anti-lost Tag

Make Finding Things Even Easier.

F6 is a smart & ultra-thin tracking device for everyone, based on Bluetooth Low Energy 5.0 technology, to keep track of your stuff and find your losing things easily. F6 anti-lost tag is more than a tracker. It is also a Bluetooth selfie assistant by remotely controlling the shutter of mobile phones or tablets.

Multiple colors

Sleek design

Movement alarm

Two-way finding

90dB buzzer

Disconnection alerts

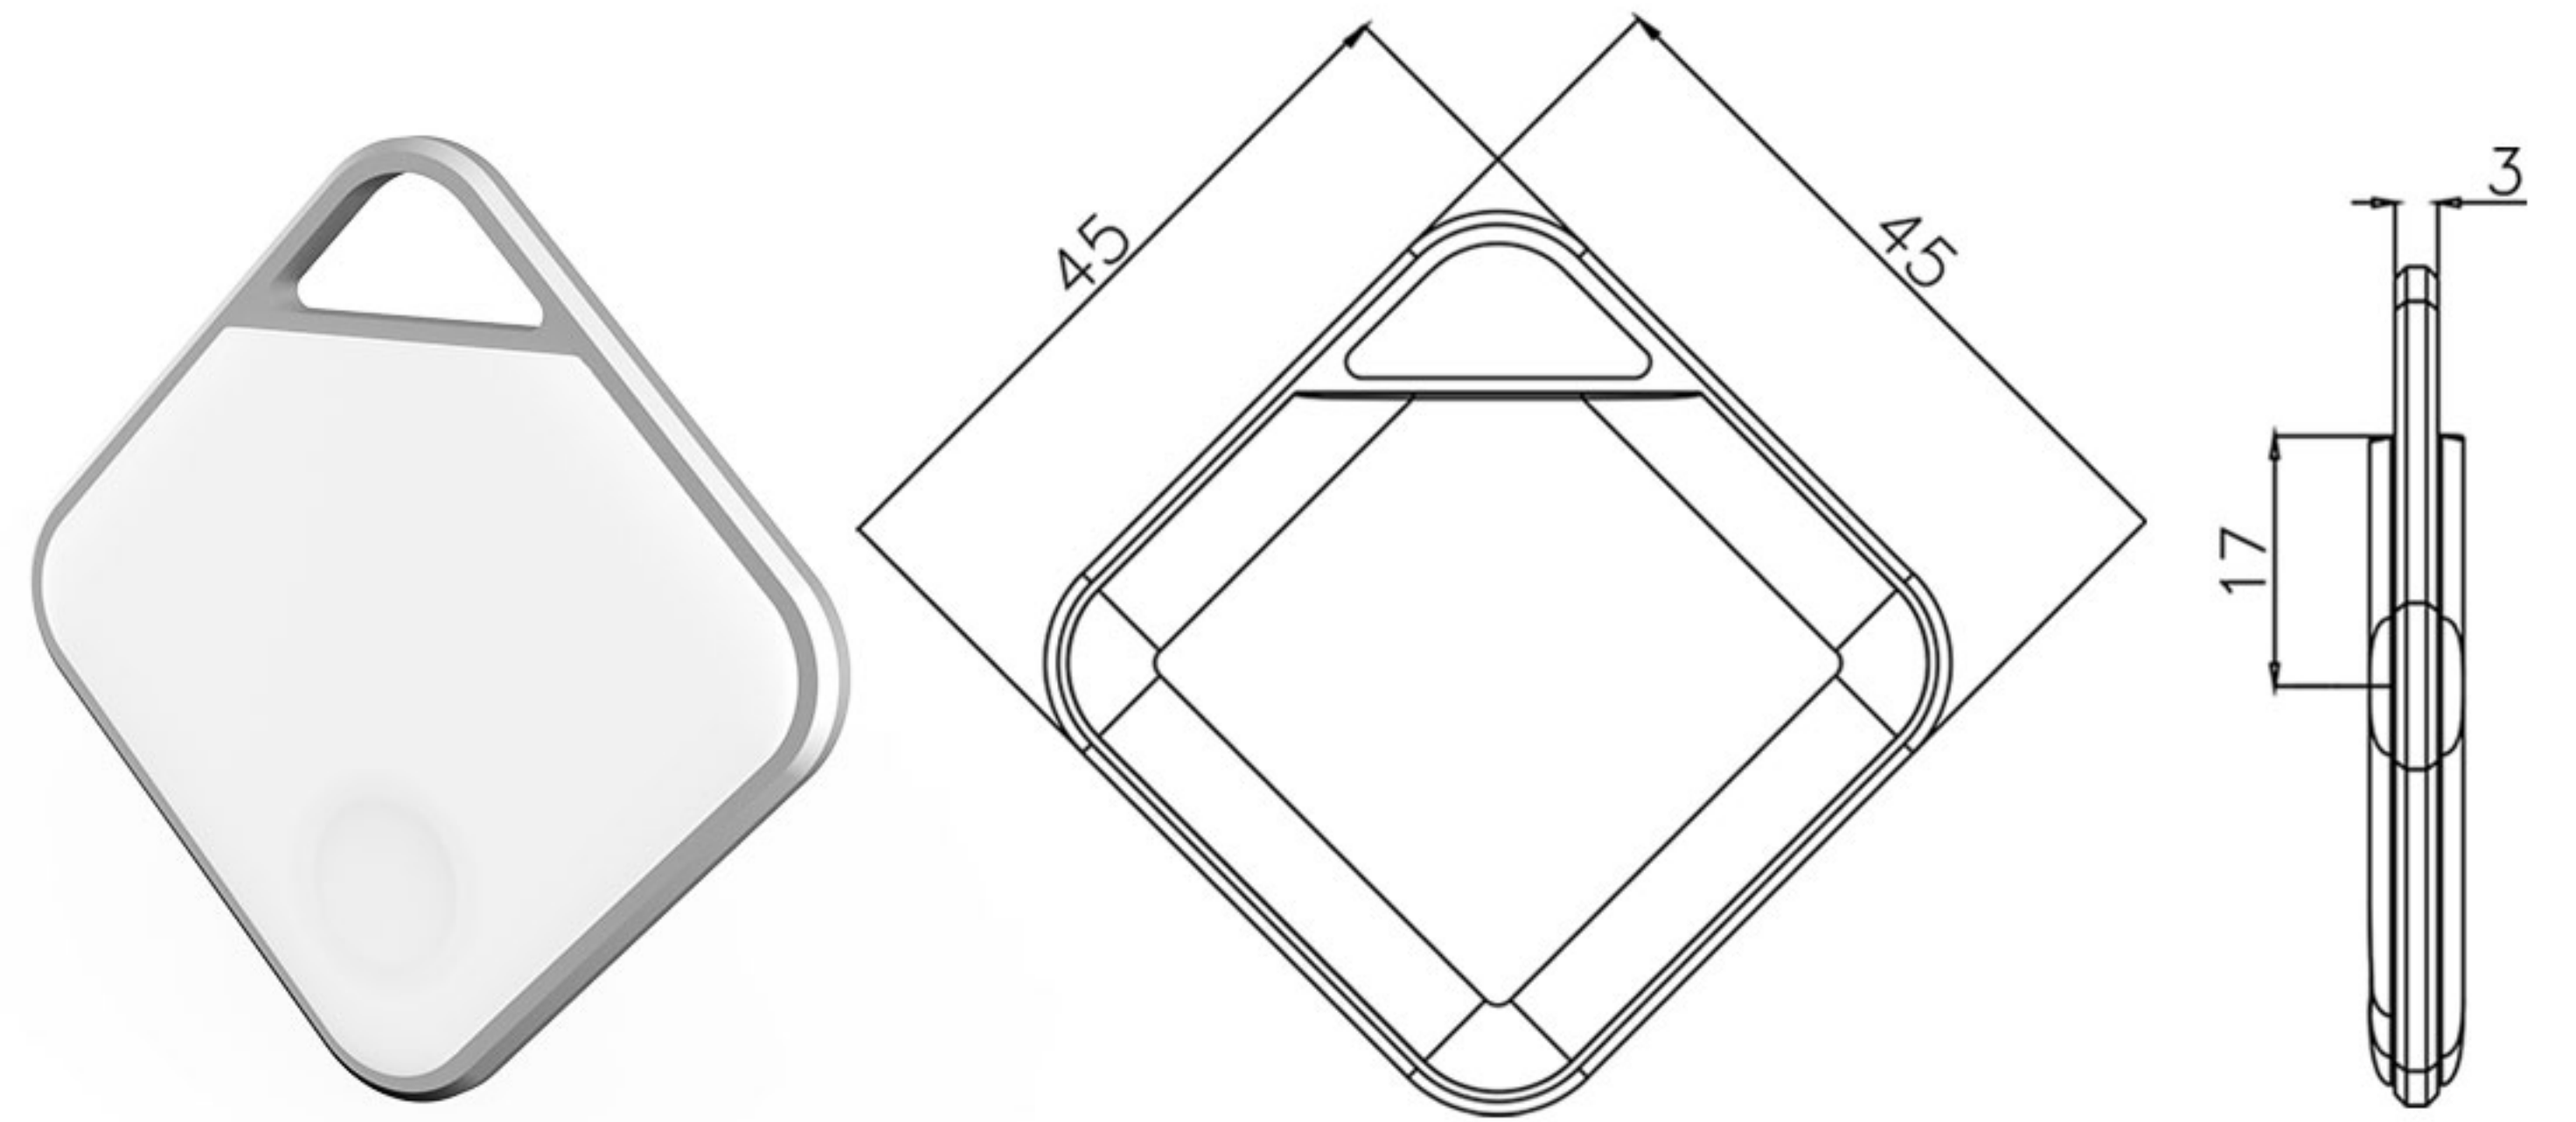

LED indicator light

Last location record

Remote shutter control

How it works

1. Pair F6 to your mobile phone through T-Finder App. (Available on Google Play & App Store)

2. Make F6 ring for two-way finding or check the E-map via the App to look for your lost item.

3. Tap the "Stop" button on the App to switch off the ringing after finding your lost item.

Typical use-cases
