

MBT02 Connectable Asset Tag

Manage Assets with Bluetooth bidirectional connectivity.

MBT02 Connectable Asset Tag is a cutting-edge asset tracking tag powered by Minew's advanced 3rd generation Bluetooth® LE firmware. With its robust bidirectional connectivity, the MBT02 executes gateway commands seamlessly, enabling remote configuration, OTA upgrades, lighting, ringing even in batches, and more. Ideal for warehouse and logistic scenarios, it enhances the user experience and streamlines tag management.
