

LSN01 LoRaWAN® Audible and Visual Alarm

Turn Remote Alerts into Immediate On-site Action

LSN01 turns alerts from IoT monitoring and tracking systems into clear sound and light warnings on site, helping teams recognize critical events sooner and respond faster.

[Order now](#)

KEY FEATURES ▶

Faster On-site Response

Bring platform alerts directly to the people who need to act.

Hard to Miss

At least 110 dB sound and a high-intensity flashing light.

Identify Events Faster

Three selectable tones help distinguish events or areas.

Unified Alert Coverage

Connect multiple alarm points across large facilities with LoRaWAN.

Built for Demanding Environments

IP65 protection for dusty or damp locations.

HOW IT WORKS

APPLICATIONS ▶

Smart Factory Safety

Equipment, personnel safety, access control, and production alerts

Warehouse and Logistics

Cold storage, leak, asset movement, and geofence alerts

Environmental Monitoring

Gas, smoke, water leak, and temperature alerts

Campus Safety

Alerts across classrooms, labs, dormitories, and outdoor areas

Model	LSN01
